Safeguarding

Are you aware of any Safeguarding concerns?
Please give details below:

Data Sharing

Summary Care Record (SCR)
The SCR is an electronic record summary held on the central NHS database. It provides authorised care professionals with faster, secure access to essential information about you when you need care i.e. medications you are currently receiving.
More information can be found by visiting: <http://systems.digital.nhs.uk/scr>.

Tick this box if wish to opt-out of the SCR

Medical Interoperability Gateway (MIG)
The MIG enables secure sharing of relevant medical information from your GP record with other healthcare professionals who are providing you with direct care, even if they are not using the same electronic records system. At point of care, you will be asked if you consent to the care service seeing essential elements of your record.
More information can be found by visiting: <http://www.healthcaregateway.co.uk/products>.

Tick this box if you wish to opt-out of the MIG data sharing

Enhanced Data Sharing Module (EDSM)

Dr Kapur and Partner use a clinical computer system called SystmOne to record your medical information. With your consent, you can allow your full GP record to be shared with other healthcare services that are providing care for you and who also use SystmOne. These other services will always ask consent to view your record. **For more information, please visit our website at brandonsurgeryatbelgravehc.co.uk**

Tick this box if you wish to **opt-out** of the Enhanced Data Sharing Module

Please record any additional information about your child that you think is important for us to know

Electronic Prescription Service (EPS)

EPS enables prescribers - such as GPs and practice nurses - to send prescriptions electronically to a dispenser (such as a pharmacy) of the patient's choice. This makes the prescribing and dispensing process more efficient and convenient for patients and staff.

If you have already nominated a pharmacy, please tell us which pharmacy you have chosen. For further information about this service, please talk to your pharmacist of choice.

As from 2.3.2020 the Dr R Kapur & Partner Surgery now uses prescription tokens . Patients without a nominated pharmacy will be given a "prescription token"; the token will have a longer barcode down the right-hand side of the prescription and a doctor's signature is no longer required. This will be given to the patient (or their representative) or collected as part of a prescription collection service. Patients can take these tokens to any pharmacy in England.

For the 30+ million patients who already have a nominated pharmacy the nomination will remain valid, and nothing will change. Patients with a nominated pharmacy do not need to collect tokens.

NHS Organ Donor registration in England has changed

What has changed?

Organ donation in England has moved to an 'opt out' system. You may also hear it referred to as '**Max and Keira's Law**'. This means that all adults in England will be considered to have agreed to be an organ donor when they die unless they have recorded a decision not to donate or are in one of the **excluded groups**. Parents and Guardians can register their children and children can register themselves.

Your family will still be approached, and your faith, beliefs and culture will continue to be respected.

You still have a choice whether or not you wish to become a donor. **Get the facts** about organ donation to help you decide.
